Finding Home Away from Home

An international student's experience at FPD is about so much more than just the classroom. The most meaningful moments happen during shared meals, family traditions, weekend adventures, new experiences, and everyday moments that help turn an unfamiliar place into a second home. This month, we're celebrating the friendships, memories, and special connections our students are making. We are especially grateful for the families, host families, and individuals who come alongside our students, welcome them into their lives, and help make their time at FPD so special.

Michelle (8th), Grace (8th), Tricia (11th), and Eva (9th) at Fall Festival

FPD's international students partnered with a local homeschool group to host a fall festival for children involved in Campus Clubs. The event featured games, face painting, pumpkin decorating, and a Gospel presentation, sharing God's love through a fun afternoon of fellowship and service.

Each child went home with treats and hygiene supplies generously donated by FPD parents Dr. Katie Garvin and Dr. Margaret Moore, along with St. Nick's Necessities.

After the festival, our students enjoyed dinner together at Ingleside Village Pizza. What a great opportunity for our international students to serve others and build connections in our community!
